

Khadija Azhar

Artificial Intelligence Student | AI & Automation | Backend | DevOps | Cloud
khadijaceo90@gmail.com | +92-3258810962 | Askari X, Lahore, Pakistan | IELTS Band 7.5

PROFESSIONAL SUMMARY

Artificial Intelligence student focused on automation, backend engineering, DevOps, and cloud technologies, with hands-on experience building, containerizing, automating, and monitoring software applications. Skilled in Python, Java, Spring Boot, REST APIs, Docker, GitHub Actions, CI/CD, Prometheus, Grafana, and Azure fundamentals. Strong in problem-solving, technical documentation, and translating requirements into practical software solutions, with a career focus on developing AI-powered, scalable, and reliable systems. Also brings experience in business analysis, including requirements gathering, research, documentation, and aligning technical solutions with business needs.

TECHNICAL SKILLS

Programming & Backend: Java, Python, C++, SQL Fundamentals, Spring Boot, Flask, REST APIs

DevOps & Cloud: Docker, Docker Compose, Git, GitHub, GitHub Actions, CI/CD Fundamentals, Microsoft Azure Fundamentals

Monitoring & Build: Prometheus, Grafana, Gradle, health/metrics endpoints, VS Code

Other: Microsoft Excel, Word, PowerPoint | English - Fluent (IELTS 7.5), Urdu - Native

FEATURED TECHNICAL PROJECTS

ReliefGrid PK - Community Incident Management Platform | *Java | Spring Boot | Gradle | H2 | REST APIs | Docker | GitHub Actions*

- Developed a community incident-management prototype for reporting hazards, viewing active incidents, tracking status, and community confirmations.
- Built Spring Boot model, repository, service, and controller layers with REST endpoints and H2 database integration.
- Containerized the application with Docker and configured GitHub Actions to automate build validation on repository updates.

AegisOps - Application Monitoring & Observability System | *Python | Flask | Docker | Prometheus | Grafana*

- Built a containerized Flask service with health and Prometheus metrics endpoints for operational monitoring.
- Instrumented request count, request rate, latency, error status, and health metrics and visualized them in Grafana.
- Created dashboard panels for uptime, total requests, latency, 5xx errors, CPU, memory, health status, and request activity.

Jet Furry — 2D Arcade Game | *Python, Pygame, NumPy*

- Developed a real-time 2D arcade shooting game using Python and Pygame, implementing object-oriented concepts including inheritance, polymorphism, encapsulation, and abstraction.
- Built player movement, enemy spawning, shooting, collision detection, scoring and level progression, with dynamically generated sound effects using NumPy.

EXPERIENCE

DevOps Intern | CodeAlpha (Remote) | *Summer 2026 - 4 Weeks*

- Completed hands-on projects in Docker containerization, Java/Gradle build automation, GitHub Actions CI/CD, Prometheus/Grafana monitoring, and Git/GitHub workflows.
- Built and managed Docker images/containers and documented project architecture, setup, commands, implementation steps, and results in GitHub README files.

Business Analyst | Billion Ideas | *2026 - Present*

- Translate client requirements into structured technical/business solutions, reports, proposals, and system documentation; conduct market and competitor research for decision-making.
- Coordinate requirements and quality reviews across technical and non-technical stakeholders and use Excel, SQL, Word, and digital tools for analysis and documentation.

Additional Experience

- **Bank Alfalah** - Banking Operations & Customer Service Intern, *Summer 2025 (6 weeks)*: customer service workflows, complaint-resolution processes, and SLA-focused operations.
- **Compass Air Aviation** - Tour Consultant, 2023-2025: managed bookings, visa processing, hotels, ticketing through Amadeus GDS, and time-sensitive client issues.

EDUCATION

BS Artificial Intelligence | University of Management and Technology (UMT) | *Oct 2023 - Present*

- CGPA: 3.2 | Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Python, Data Structures & Algorithms

Intermediate - ICS | Lahore College for Women University (LCWU) | *2021 – 2022*

Activities: Inter AI Club and Debating Club, University of Management and Technology
