

Khadija Azhar

Computer Science Student | AI & Automation | Backend | DevOps | Cloud
khadijaceo90@gmail.com | +92-3258810962 | Askari X, Lahore, Pakistan | IELTS Band 7.5

PROFESSIONAL SUMMARY

Computer Science student with hands-on experience in DevOps, cloud deployment, containerization, CI/CD, monitoring, REST APIs and web application development. Built and deployed projects using Docker, GitHub Actions, Microsoft Azure, Gradle, Prometheus and Grafana, with additional experience developing responsive web applications and webhook-based systems. Currently expanding into AI infrastructure and production AI systems, combining software development with cloud and deployment practices. Seeking a DevOps / AI internship where I can contribute to real-world systems while strengthening my skills in automation, infrastructure and scalable application deployment.

TECHNICAL SKILLS

DevOps & Cloud: Docker, Docker Compose, CI/CD, GitHub Actions, Microsoft Azure App Service, Git, GitHub

Monitoring & Observability: Prometheus, Grafana, Application Health Monitoring, Metrics

Backend & APIs: REST APIs, Webhooks, Java, Spring Boot, Gradle, Flask, H2 Database

Frontend: HTML5, CSS3, JavaScript, Responsive Web Development

AI Infrastructure: LiveKit Cloud, ElevenLabs Integration, AI Agent Architecture, API Integration
Core Concepts: Containerization, Version Control, Build Automation, Cloud Deployment, API Integration, Software Development Lifecycle

FEATURED TECHNICAL PROJECTS

ReliefGrid PK - Community Incident Management MVP | *Java* | *Spring Boot* | *REST APIs* | *H2* | *Docker* | *GitHub Actions*

- Built a web platform for reporting and tracking community incidents.
- Developed REST APIs and backend components using Spring Boot.
- Used Gradle for build automation and dependency management.
- Containerized the application using Docker.
- Created GitHub Actions workflows for CI automation. Built a CI/CD pipeline using GitHub Actions to automate Gradle builds, testing, Docker image creation and container publishing.

AegisOps - Application Monitoring & Observability System | *Python* | *Flask* | *Docker* | *Prometheus* | *Grafana*

- Containerized a Flask web application using Docker.
- Created health and metrics endpoints for monitoring.
- Integrated Prometheus for metrics collection.
- Built Grafana dashboards for application monitoring.
- Used Docker Compose to manage multiple services.

YAP Order Management & AI Ordering Infrastructure | *Azure* | *Webhooks* | *REST APIs* | *LiveKit* | *ElevenLabs*

- Built a web application for receiving structured restaurant orders.
- Used webhooks and JSON for order-data communication.
- Deployed the application on Microsoft Azure App Service.
- Worked with LiveKit Cloud and ElevenLabs integrations.
- Explored real-time AI voice-agent infrastructure.

Interactive Client Portfolio Website | *HTML* | *CSS* | *JavaScript* | *GitHub*

- Developed a responsive portfolio based on client requirements.
- Added animations and interactive UI elements.
- Managed project revisions through Git and GitHub.
- Optimized the website for mobile responsiveness.

EXPERIENCE

DevOps Intern | CodeAlpha (Remote) | *Summer 2026 - 4 Weeks*

- Built hands-on solutions using Docker containerization, Java/Gradle build automation, GitHub Actions CI/CD, and Prometheus/Grafana monitoring.
- Managed reproducible application environments and Git/GitHub workflows, and documented architecture, setup, commands, implementation, and results.

Business Analyst | Billion Ideas | *2026 - Present*

- Gather and translate client requirements into structured technical/business solutions, system documentation, reports, and proposals.
- Coordinate requirement and quality reviews across technical and non-technical stakeholders and conduct research to support solution decisions.

Additional Experience

- **Bank Alfalah - Banking Operations & Customer Service Intern**, *Summer 2025 (6 weeks)*: worked with customer-service workflows, complaint resolution, and SLA-focused operations.
- **Compass Air Aviation - Digital Operations & Systems Assistant**, *2023-2025*: supported digital booking systems and Amadeus GDS, maintained operational data, assisted with website and digital workflow updates, resolved basic system/process issues, and coordinated technology-enabled travel operations.

EDUCATION

BS Artificial Intelligence | University of Management and Technology (UMT) | *Oct 2023 - Present*

- CGPA: 3.2 | Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Python, Data Structures & Algorithms

Intermediate - ICS | Lahore College for Women University (LCWU) | *2021 - 2022*

Activities: Inter AI Club and Debating Club, University of Management and Technology
